Log ind på Zyxel modem på adressen 192.168.1.1 (<http://192.168.1.1/>)

Første gang er brugernavn: admin Koden er: 1234

Den spørge derefter at skifte kode. Koden skal du selv lave, en som du kan huske.

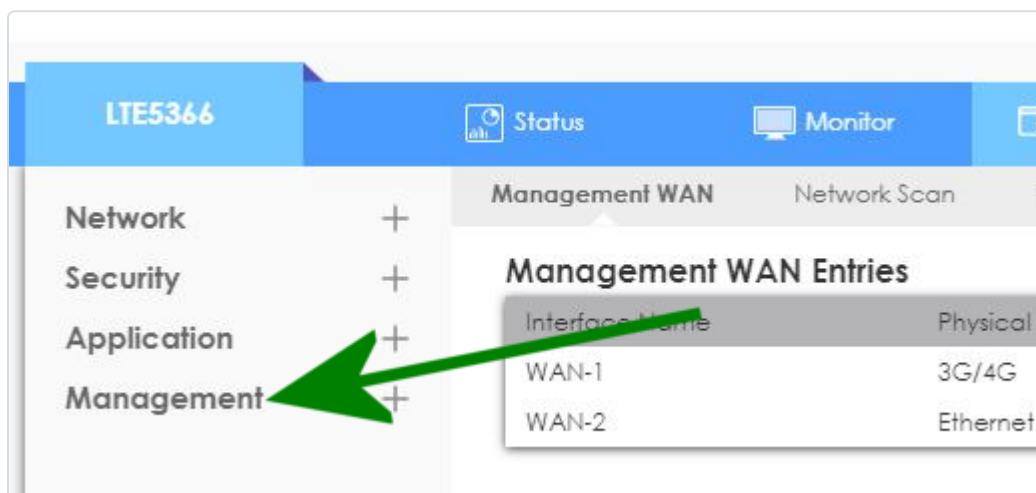

Når man kommer ind på Zyxel siden skal man trykke på Configuration som vist herunder:

The screenshot shows the Zyxel LTE5366 web interface. The top navigation bar includes 'LTE5366', 'Status', 'Monitor', 'Configuration', and 'Ma'. A green arrow points to the 'Configuration' menu item. Below the navigation bar, the 'Device Information' section is visible, containing a table with the following data:

Item	Data
Host Name:	LTE5366
Model Number:	LTE5366
Firmware Version:	V1.00(ABKA.0)C0
WAN Information:	

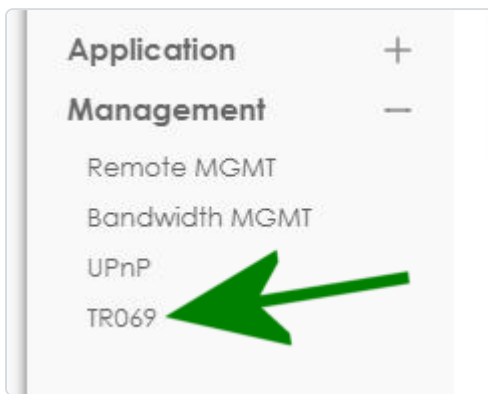

Derefter trykkes der på Management i venstre side:

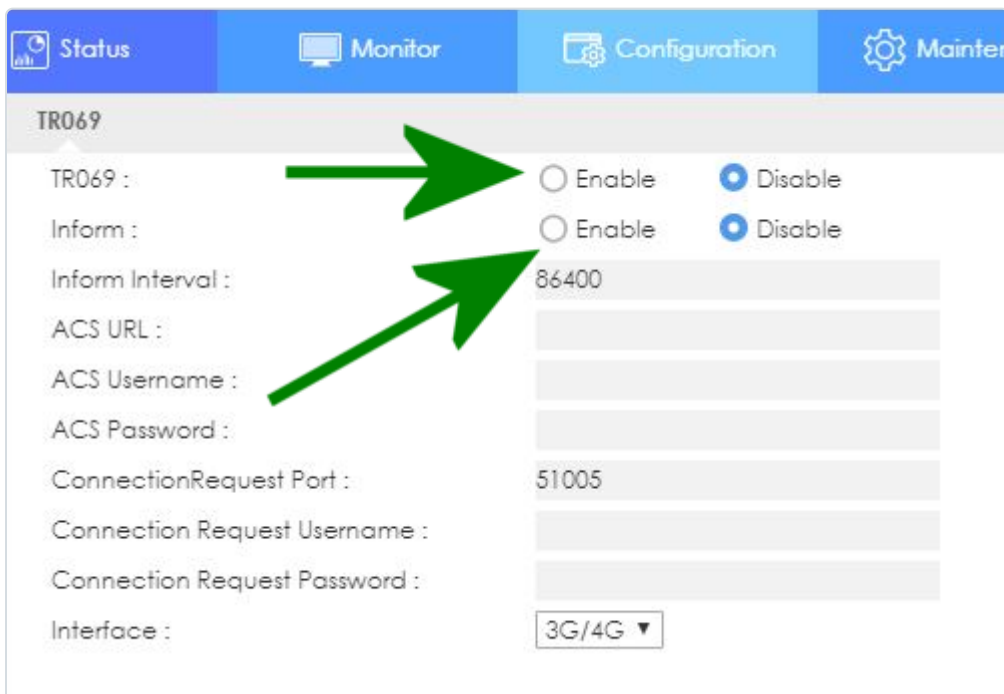

The screenshot shows the Zyxel LTE5366 web interface with the 'Management' menu item highlighted in the left sidebar. A green arrow points to the 'Management' menu item. The main content area shows the 'Management WAN' section, which includes a table with the following data:

Interface Name	Physical I
WAN-1	3G/4G
WAN-2	Ethernet

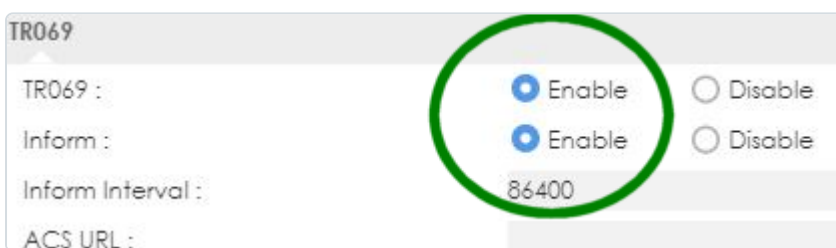

Så trykkes der på TR069:

Sæt disse 2 til Enable:

Således:

Tryk til sidst på Apply nederst.
